

Book 18 of the *Building Science Concepts Exploring Sound*

The following hyperlink is to an online interactive produced by the BBC that would complement this *Building Science Concept* book in exploring sound:

http://www.bbc.co.uk/schools/scienceclips/ages/9_10/changing_sounds_fs.shtml. This online interactive allows children a fun, contemporary yet thorough way to investigate the properties of sound. Children have opportunity to play and at the same time reinforce and hone what was introduced in Book 18. It could also be used as a non-threatening assessment tool; children would be encouraged by the familiarity of the medium to take risks. The results of their efforts would be instant and gaps in knowledge readily apparent.
