

NZASE National Primary Science Week

AWEWONDERINTEREST

7–11 May 2012

**Will you be in Wellington
during Primary Science
Week.....?**

Celebrate Primary Science Week at Te Papa

**Book in for a special version of the
Invertebrates education programme!**

Go on a treasure hunt to uncover the variety of incredible invertebrates found in Aotearoa New Zealand. Discover one that glows in the dark. Investigate insect features before evaluating the good, the bad, and the bugly! Find out which insect superhero can save the world - and how you can help!

As part of this programme, your students will see some amazing butterfly specimens. This links in with the Primary Science Week citizen science project - *Monarch Butterfly Tagging*.

Learning areas and strands: Science - Living World: Evolution

Year level: Years 1 – 8

Duration: 60 minutes

Cost per student: \$6.50 (Teachers and parent helpers are free)

To find out more and to book go to:

<http://www.tepapa.govt.nz/Education/Primary/Pages/Invertebrates.aspx>

How will you save the world?

Bring your students to *NatureSpace* Discovery Centre where they can share their tips on how save the earth and all of its inhabitants. All tips and ideas will be written onto a paper butterfly and will be added to a collage, so that our wonderful ideas can be shared with all people visiting Te Papa.

For schools who cannot get to Te Papa, you can share your tips and ideas via email (education@tepapa.govt.nz) and these will be displayed on Te Papa's website.

One of Te Papa's educators had the following tip when asked how they were helping to save the planet:

"I am helping to save the world by recycling at home and using public transport whenever I can"

Free Science information evening for teachers!

**Tuesday 8 May
4pm – 5pm
Level 4 Classroom, Te Papa**

A free information evening will be held at Te Papa for all science teachers. Come along and try out some science learning activities that you can use with your students. Discover more about Te Papa's science education programmes and collect a free science information kit.

To find out more and to book, contact the Education Coordinator by emailing reservations@tepapa.govt.nz
