

NZASE National Primary Science Week

AWE WONDER INTEREST

7-11 May 2012

Making the most of Connected

 Webinar

 Tuesday 8 May

 4-5pm

Connected provides in-depth content that promotes the exploration and learning of ideas in science, technology, and mathematics, and is distributed to all New Zealand schools.

Join the team from [Learning Media](#) in a **webinar** to find out more about Connected and how to use the books and teacher support materials in your classroom programmes.

The 1 hour presentation will include:

an introduction to the series - discussing its purpose and features, and how it supports students to meet the reading demands of the New Zealand Curriculum;

a look at the new-look teacher support materials and how they can be used to plan a lesson or unit;

a presentation by a teacher on how she uses Connected in her classroom;

a look at the topics that will be featured in the latest Connected books (which will be distributed to your schools in July).

Participating in a webinar is fun and easy. All you need is a computer and internet access – and you get to view it where ever you want!

When you register, you will be given log in details and instructions of what to do.

Sign up individually or as a syndicate or whole staff group.
