

COMING SOON AT FAIRFAX NIE...

Teachers, are your students science savvy?

SCIENCE 1.0.1

Published 8 May 2012 - Curriculum Level 4

BONUS!

All ordering teachers also receive **FREE** copies of your local Fairfax Media daily newspaper and **FREE** teacher notes.

EXTRA!

Don't forget to download the **FREE** Activinspire whiteboard extension exercises available for this topic. Visit www.prometheanplanet.com and search for NIE flipcharts using the keyword NIE.

Content includes: Light, sound, forces and motion, gravity, friction, magnetism, air resistance, electricity.

Learning Area: Science

Teacher support notes are sent to all teachers ordering class sets of this topic.

ALSO AVAILABLE:

HOW IT WORKS

This 24-page broadsheet resource covers a wide range of things and explains just 'How It Works'. These include hydro power, how birds fly, what happens when you 'Google' it, the lifecycle of a plastic bottle and much more. Ideal for class work or to decorate the classroom walls.

Encourage your students to enter the NZASE National Primary Science Week Poetry Competition

"May the force be with you!"

NZASE National Primary Science Week is from May 7-11. NIE is supporting the week with a poster competition in conjunction with the Newslinks mini newspaper "Science 1.0.1."

■ There are all sorts of ways to communicate ideas in science. A poster can be a great way to express thoughts and observations about science, so here's an opportunity for students to have a go at creating a poster.

■ The competition is for Year 7-8 students. Enter the competition and get the supporting science curriculum material on our website www.fairfaxnie.co.nz

■ The winners will have their posters published in Newslinks and on the NIE website. They will also win books by the Surfing Scientist, Ruben Meerman.

■ See details about National Primary Science week and what's happening in the regions on the website www.nzase.org.nz/primaryscience/archive.php
